

Contribution Statement

Team: shahinsafarli / Emil-Jafarov-06 / Jeyhunaa

Topic: Topic 4 — Async Research Assistant

Repository: <https://github.com/shahinsafarli/async-research-assistant>

Final tag: v1.0-final

Submission date: 2026-05-23

--

Commit and PR ownership summary

This statement follows the final repository commit/PR history. Each pull request is assigned to the member who owned the branch and authored the main implementation work. Reviewer assignments are listed separately from merge attribution.

PR	Branch / work item	Main owner	Reviewer	Merge attribution
#1	emil/config-and-models — configuration and models	Emil Jafarov	Shahin Safarli	Merged by Emil Jafarov
#2	jeyhuna/architecture-docs — architecture docs and package entry point	Jeyhuna Sevdieva	Emil Jafarov	Merged by Jeyhuna Sevdieva
#3	emil/ai-service-and-core — AI service with retries and logging	Emil Jafarov	Shahin Safarli	Merged by Emil Jafarov
#4	jeyhuna/storage-layer — SQLite storage repository	Jeyhuna Sevdieva	Shahin Safarli	Merged by Jeyhuna Sevdieva
#5	jeyhuna/cache-and-search-utils — TTL cache, query utility, benchmark script	Jeyhuna Sevdieva	Emil Jafarov	Merged by Jeyhuna Sevdieva
#6	emil/concurrency-and-core — async orchestration and core researcher logic	Emil Jafarov	Jeyhuna Sevdieva	Merged by Emil Jafarov
#7	shahin/cli-and-researcher — CLI commands and researcher entry point	Shahin Safarli	Jeyhuna Sevdieva	Merged by Shahin Safarli
#8	jeyhuna/add-demo-script — demo script	Jeyhuna Sevdieva	Emil Jafarov	Merged by Jeyhuna Sevdieva

PR	Branch / work item	Main owner	Reviewer	Merge attribution
#9	shahin/combined-testing-suite — unified offline testing framework	Shahin Safarli	Jeyhuna Sevddiyeva	Merged by Shahin Safarli
#11	emil/streamlit-and-docker — Streamlit app and Docker setup	Emil Jafarov	Shahin Safarli	Merged by Emil Jafarov
#15	shahin/postgresql-adaptation — PostgreSQL adaptation and related file edits	Shahin Safarli	Emil Jafarov	Merged by Shahin Safarli
#16	emil/report-and-readme — final report and README	Emil Jafarov	Jeyhuna Sevddiyeva	Merged by Emil Jafarov
#17	jeyhuna/presentation-and-contribution — presentation files and contribution statement	Jeyhuna Sevddiyeva	Shahin Safarli	Merged by Jeyhuna Sevddiyeva
#18	emil/readme-name-and-contribution-fix — README name fix and contribution statement updates in MD and PDF formats	Emil Jafarov	Shahin Safarli	Merged by Emil Jafarov
#19	shahin/artifacts-and-final-tag — project artefacts and final tag addition	Shahin Safarli	Emil Jafarov	Merged by Shahin Safarli

--

Member A — Shahin Safarli (@shahinsafarli)

Owned (sole author of these files / PRs):

- Project scaffolding: .gitignore, GitHub PR template, topic-4 template, provided ai/ module placement, smoke tests, data files, and .env.example
- src/cli/ — CLI commands including ask and history
- Researcher package entry point used by the CLI flow
- tests/ — unified offline testing framework covering configuration, storage, service, researcher, concurrency, CLI, and utility modules
- PostgreSQL adaptation — adapted the codebase to support PostgreSQL storage and edited the related files accordingly
- PRs: #7, #9, #15, #19

Reviewed:

- PR #1 — reviewed Emil's `emil/config-and-models` branch
- PR #3 — reviewed Emil's AI service work
- PR #4 — reviewed Jeyhuna's SQLite storage layer work
- PR #11 — reviewed Emil's Streamlit and Docker work
- PR #17 — reviewed Jeyhuna's presentation and contribution statement work
- PR #18 — reviewed Emil's README name fix and contribution statement updates

Co-owned (paired or substantially edited):

- Repository initialization and branch strategy with all team members
- Storage backend integration after PostgreSQL support was added, while preserving Jeyhuna's original SQLite storage work

Approximate share of commits: 33%

--

Member B — Emil Jafarov (@Emil-Jafarov-06)**Owned (sole author of these files / PRs):**

- `src/config.py` — initial configuration scaffold with typed environment variables
- Core model/config setup from PR #1
- `src/services/ai\\_service.py` — AI service wrapper with retry logic and structured logging
- `src/concurrency/` — async orchestrator with per-source timeouts and graceful degradation
- Core researcher logic connected to the async orchestration flow
- `app/` — Streamlit application
- Docker setup — `Dockerfile`, `docker-compose.yml`, and related Docker configuration files
- `README.md` — project overview, setup instructions, usage examples, and environment configuration guide
- `docs/report.md` / `docs/report.pdf` — final project report covering architecture, design decisions, async patterns, testing, and evaluation
- PRs: #1, #3, #6, #11, #16, #18

Reviewed:

- PR #2 — reviewed Jeyhuna's architecture documentation and entry point work; this PR is still treated as merged by Jeyhuna herself
- PR #5 — reviewed Jeyhuna's cache, search utility, and benchmark work
- PR #8 — reviewed Jeyhuna's demo script work
- PR #15 — reviewed Shahin's PostgreSQL adaptation work
- PR #19 — reviewed Shahin's project artefacts and final tag addition

Co-owned (paired or substantially edited):

- No co-ownership or merge ownership is claimed.

Approximate share of commits: 33%

--

Member C — Jeyhuna Sevdieva (@Jeyhunaa)

Owned (sole author of these files / PRs):

- docs/architecture.md — architecture documentation
- src/___main___.py — package entry point
- src/storage/ — SQLite storage repository with session persistence
- src/services/cache_service.py — TTL cache service
- src/utis/search_query.py — search query utility
- scripts/bench.py — benchmarking script
- scripts/demo.py — demo script for project demonstration
- docs/presentation.pptx — project presentation slides
- docs/presentation.pdf — exported PDF version of the project presentation
- CONTRIBUTION_STATEMENT.md — contribution statement documenting individual contributions, PR ownership, and AI tool disclosure for the full team
- PRs: #2, #4, #5, #8, #17

Reviewed:

- PR #6 — reviewed Emil’s concurrency and core researcher work
- PR #7 — reviewed Shahin’s CLI/researcher work
- PR #9 — reviewed Shahin’s combined testing suite
- PR #16 — reviewed Emil’s final report and README work

Co-owned (paired or substantially edited):

- Storage layer integration with the CLI history command, coordinated with Shahin after the CLI and PostgreSQL-related work

Approximate share of commits: 33%

--

AI tool disclosure

We used AI coding assistants as support tools. Each item lists the module, the assistant, and what the team did with the output.

Module / file	Assistant	What we did with it
src/services/ai_service.py	Claude	Suggested retry/backoff structure; the team revised error handling and integrated the project-specific logging format.
src/concurrency/orchestrator.py	Claude	

Module / file	Assistant	What we did with it
		Drafted the initial async task structure; the team rewrote the per-source timeout logic and graceful degradation after integration testing.
tests/	Claude	Proposed test scaffolding; the team reviewed all cases, removed mocks that did not match actual interfaces, and added concurrency and CLI edge-case tests.

We affirm that we can defend every line of code in this repository during the oral defense. “The AI wrote it” is not an answer we will use.

--

Signatures

By signing below, we affirm that:

- The contributions described above are accurate.
- The commit percentages reflect actual work, not artificially split commits.
- Every line of code in the repository can be defended by at least one team member.
- AI assistant usage has been disclosed as described above.
